IMS
Verbindungstechnik

18. December 2007

The ground-breaking ceremony for the construction of the new company building.

Neuenstein. **The IMS managing directors Oliver Gänssler and Siegfried Humm met the mayor of Neuenstein Sabine Eckert-Viereckel and head of regional district Helmut Jahn to break the ground for the new building on December 18th, 2007. The architect Thomas Müller and the construction manager Paul Krämer attended the ceremony, too.**

First of all Oliver Gänssler took a speech and thanked attendees for the very good cooperation. After that the head of regional district Helmut Jahn handed out the building licence.

IMS is going to invest 4.5 million euros in the new building. The construction work will start on January 7th, 2008 and will be completed in August 2008. Reason for the expansion is the capacity need in the administration and logistics. Due to increasing sales and growing number of employees the current location of IMS has become undersized. In future IMS has sufficient expandability on the 10,000 sq. m premises.
