

Slotted nut

Product group C05.01

Features

- Self-locking with radial locking slot.
- The nut is strongly copper-plated and is therefore suitable in areas of extreme heat, e.g. exhaust.
- Suitable for temperatures from -70°C to $+400^{\circ}\text{C}$.
- Less damage at the bolt-thread in comparison to other safety-nuts.
- The slotted nuts are made of high-quality steel FK 8.
